

## **Chapter 8-09**

### **HOMEOWNER'S CARD VERIFICATION POLICY**

#### **I. POLICY**

- A. It is each member's responsibility to carry a Homeowners Card at all times and to show it upon request when using Association facilities.
- B. An Association employee may ask a member to present their Homeowner's card at any time. The member must comply. Failure to comply will result in denial of service or product.
- C. Homeowner's cards are checked when making tee times and entering the Fitness Activity Center, and may be required when making reservations or when using recreational and food and beverage facilities.
- D. The law requires residents of a private association to show their Homeowner's Card when buying alcoholic beverages in any food and beverage outlet on the property. Once a card has been shown and the frequency of the member makes it obvious to the staff that they are in fact a resident, it may not be necessary to show the card unless it is requested by an employee or law enforcement officer.
- E. To help maintain the integrity of our Association Membership and offer our residents the freedom and benefits that are synonymous with a private association, we ask that you be proud to carry and show your Homeowner's Card.
