

Chapter 7-07

GOLF ACTIVITY SCHEDULING RESTRICTIONS

I. PURPOSE

To present the specific rules related to the restrictions placed on the activity schedules for the men's and women's golf clubs. These clubs provide organized golf play for Cottonwood Palo Verde homeowners. This policy is intended to bring a "best interest" balance to the clubs and the Association with respect to the utilization of the Association's Golf Facilities.

II. POLICY

Club golf activities requiring the use of either golf course may not be scheduled on a holiday weekend during the peak golf season from November 1 to May 1. This policy shall specifically prohibit any golf club activity that requires the use of a non-gender day for weekend play. No extended tournaments or activities shall be allowed that require the use of exclusive tee times or shot gun starts during the identified holiday weekends. All Board sanctioned clubs may continue to use their regular weekend gender days for club activities during the holiday weekends.

All club activities that require use of the golf courses for days beyond the regular club gender day will require special approval from the Board of Directors. Such requests will need the approval of the Head Professional at the effected course, the Golf Committee and the Superintendent of Golf Course Maintenance. The Golf Committee shall make all such requests to the Board of Directors through the established committee recommendation procedure.

This policy WILL allow for Golf Shop/Association sponsored activities on holiday weekends IF such events are open to all Cottonwood Palo Verde at Sun Lakes homeowners. Each year, prior to the establishment of the golf club calendars, the General Manager shall identify and send to each club the holiday weekends that will be restricted by this policy.
