

1. What is your motivation for running for the Board of Directors?

I have lived in CWPV for nearly 11 years. It's a great community, and I want to help to keep it that way. I don't want it to become just another community that has been forgotten from a progress or upkeep standpoint. I want to make sure we remain a desirable, well-maintained, modern community while keeping within our fiscal means.

2. What do you consider to be the primary functions of the Board of Directors?

The Board of Directors follows and amends policies which hold the community to a standard described in our association documents, assuring fiscal health and community growth and well-being for our homeowners and our employees.

3. Have you ever served as a member of a board of directors? Where, when and for what organizations?

Since September, I have been on the HOA#2 Board of Directors filling a vacancy. I served on the Board of Directors as President for the Sun Lakes Bocce Club for 3 years from 2013 to 2016, and as Vice President in 2012. I also served on the Board of Directors as President of the Sun Lakes Pickleball Club Cottonwood for 4 years from 2016 to 2020, and as Vice President in 2015.

4. What personal characteristics / skills do you possess that you feel will enhance the performance of the Board?

I listen without making judgements and am open to different viewpoints. I am experienced in achieving consensus with large groups of people, which can assist in Board decision-making. Understanding fiscal responsibility is critical and I have worked with large budgets over \$4 million. I have opinions and say what I feel in a reasonable and calm way as confrontation generally solves nothing. I am able to see the bigger picture without getting hung up on minutiae and unimportant items. Both short-term and long-term planning is critical to our community's health and I am skilled in those areas. I am organized, forward-thinking and tech-savvy.

I've held positions on the Recreation Committee and assisted in supporting and organizing the department's other activities including FunWalk as Chair, Christmas Golf Cart Judge and holiday activities, and have also held several club leadership positions. I take advantage of our amenities including bocce, golf, entertainment, pickleball, restaurants, pools, and all we have to offer. Because of this, I would bring to the Board the broadest experience in these areas as well as an understanding of how most of our recreational amenities work and how they are used by our homeowners.

5. What is your professional and educational background?

I hold a Bachelor of Science in Business Administration with a specialty in Management Organization and Theory from Central Washington University, 1988.

I began my career as a programmer for Honeywell in the Aerospace and Military industry where I programmed guidance and navigation systems for some of the Apollo missions, the Minuteman III missiles, submarines, and fighter jets. I also worked on satellites including the Voyager which explored the outermost planets of our solar system, leaving our system in 2018 after 40 years in space. I moved to the commercial side of information technology involving many different businesses including health care, insurance, universities, pharmaceutical, hospitality, and other sectors. This move took me from programming to project management, and management with responsibility for large budgets and employee groups in both the national and international arena, in local and corporate settings.

6. What association amenities do you use?

I use just about all of our amenities: restaurants, pickleball, bocce, our pools, Sisk Park and its features, golf including the pro shop and driving range and putting courses, the gym, library, and entertainment.

7. List any Association committees on which you have served?

Recreation Committee

8. How many Board Meetings have you attended in the last year?

I attended all but two in person and streamed the two I did not attend.

9. Provide a BIO of 100 words or less suitable for publication.

My husband and I have lived here for nearly 11 years, moving from Washington state, and I am excited to continue my Board participation. I retired from a career in management, project management, and consulting in a variety of technological sectors and feel so fortunate to have discovered this beautiful community. I participate in nearly all the amenities and events CWPV has to offer and enjoy every single one of them. When I'm not keeping busy with community offerings, I keep out of trouble by spending my time with fusing glass and enjoying our community friends.
